

PYL LOREBOOK - Unofficial Guide to the Hidden Titles of Press Your Luck

Standard Story Titles

The Gambler - Pressed at least 3 times and failed at least twice.

The Ice King - Walked away 70%+ of the time over 3+ rounds.

The Roller Coaster - Wide variance between best and worst round (15+ point swing).

The Flameout - Scored over 10 in final round but failed during the game.

The Climber - Low-scoring early rounds, strong final total.

Hidden Easter Egg Titles

The Alien - Perfect game: all presses, no fails, no walkaways.

The Escape Artist - Walked away in every single turn.

The Phantom - Never scored more than 1 in any round, never failed.

The Juicer - Failed 3+ times but still ended positive.

The Pickle King - Name contains an emoji ? especially the mighty cucumber.

Cheat Code - Name yourself 'Konami' or something? nostalgic.

Developer Mode - Enable test mode or shake the device three times.

The Magician - Come back from a negative score to a top 3 finish.

Experimental Titles (Speculative)

The Turtle - Always walks away after just one press, every round.

The YOLO - Presses every round, never walks, crashes and burns spectacularly.

The Slytherin - Wins with low but consistent scores ? never risky, never flashy.

The Overseer - Observes everything. Scores nothing. Possibly a ref.

Notes of Warning

? Do not taunt The Alien.

? Do not attempt to summon all titles at once. The system may enter narrative overdrive.

? No one has seen The Overseer... and remembered it.
